United International University

United City, Madani Avenue, Dhaka-1212

Sir,

I, Tasnimul Hasnat, am a fresh graduate from the Department of Computer Science and Engineering (CSE) at Islamic University of Technology (IUT). I am writing this letter to express my interest in the position of Lecturer of CSE at United International University. I came to know about the vacancy from your website and I consider myself as a suitable candidate for the role.

Throughout my studentship, I indulged myself in academics which not only helped me build a solid foundation in computer science but also allowed me to graduate with an outstanding result. As a recent graduate, I have a unique advantage in understanding the mindset of the students allowing me to connect with them on a deeper level. From the minor experience I have in tutoring high school students, I learned that no two students are the same and the key to delivering knowledge effectively lies in adapting my teaching style to accommodate the differences. Beyond my qualifications, I possess a genuine dedication to the success of my students with the goal of inspiring them to strive for excellence in their chosen fields. I firmly believe that these qualities will make me a good teacher fit for your esteemed institution.

With this document, I have attached my curriculum vitae which provides a comprehensive overview of my academic background. I hope you will review my application favorably and consider me for further evaluation at your convenience.

Thank you for your time and consideration.

Yours sincerely,

Tasnimul Hasnat
